

EXOWRAP INSULATION SYSTEM

FYNS KRAN UDSTYR A/S

ExoWrap, the "one step" insulation system, is the quick and easy way to insulate high temperature surfaces in vessel engine rooms.

ExoWrap is a revolutionary system made from biosoluble vitreous silicate fibre which is reinforced with an outer jacket of heat sealed aluminum foil.

ExoWrap is rated to 1000 Degrees C. and is suitable for all engine room thermal applications.

ExoWrap can be easily removed and reinstalled by using the ExoWrap "Silhesive" Tape.
